### **AMENDMENT 0001**

The purpose of this amendment is to answer RFI questions. No other changes have been made at this time.

**Question 1:** Part 3, Project Program, #5 Room Requirements tells us to provide sinks in the Activity Rooms. I assume that one would go in the bathroom. Will there be another one in the room itself for washing up or food prep?

**Answer:** All sink requirements for child activity rooms are clearly defined in the UFC 4-740-14 Design: Child Development Centers referenced in the RFP.

**Question 2:** Will any of the rooms be joined by an interior door, from one room to another?

**Answer:** The child activity rooms will not be joined to one another by personnel doors.

**Question 3:** Assume since no concept floor plans were provided that none are available. However, the geotechnical report shows boring locations that is overlaid on some type of floor plan. Is a concept floor plan available?

**Answer:** We are providing a floor plan layout that has been approved by Camp Lejeune planning and the Child Development director, HOWEVER it is not exactly the same scope as P1096 (approx. 2000 SF less). The contractor will be responsible to provide all the spaces required by the RFP and meeting the functional needs of the CDC director during the design phase.
